

<u>composition:</u>	oil only socks
<u>part number:</u>	SW8
<u>dimensions:</u>	7.6 cm x 2.4 m / 3" x 8'
<u>grade:</u>	n/a
<u>packaging:</u>	15
<u>pallet quantity:</u>	16
<u>package weight:</u>	12.2 kg / 27 lbs
<u>color:</u>	grey
<u>absorption:</u>	115.6 liters / 30.6 gallons
<u>fluids absorbed:</u>	OIL-SELECT (oil, gasoline, diesel, etc) and repels water

product information and usage:

Oil-select socks are tubular absorbents that are great for surrounding drums and machinery to contain and absorb hydrocarbon-based fluids (oil, water, gasoline, diesel, etc) while repelling water. They are filled with meltblown polypropylene post-industrial waste.

features:

- absorbs hydrocarbon-based fluids and repels water
- pushes water back in entryways
- moldable for wrapping around corners
- surrounds equipment, drains, and entryways
- durable spunbond PP casing
- great in the elements
- great first response for spreading spill

We do not recommend disposal methods. Consult with local, state, and federal authorities, as well as licensed waste haulers for specific options. Methods include landfill, incineration, and recycling (centrifuge, washing, and/or wringing).

Review our chemical compatibility chart, which is located in our website footer. For your safety, and if you are uncertain of possible chemical reactions or absorption non-performance, we recommend that you conduct compatibility and absorption testing of your chemicals with samples of these products. The compatibility chart is simply a guide.
